

Photo Booth, Save the Date Wedding Magnets introduced by MagnetStreet Weddings

Blaine, MN (March 29, 2007) The Photo Booth magnet, a new addition to the Save the Date product line, has been introduced by MagnetStreet Weddings, a leading manufacturer of promotional wedding magnets.

Save the Date magnets are a leading trend among engaged couples who use them to announce their wedding and secure it with their guests. The Photo Booth designs incorporate a film strip layout using the dimensions of 2.25 x 5.875 inches. Design options can be viewed at: MagnetStreetWeddings.com.

The Photo Booth designs are full color, completely customizable and include foil lined envelopes. Using three to four photographs, the bride and groom are able to portray their distinctive style.

According to David Baird, Vice President of Sales and Marketing at MagnetStreet, "Sometimes it is hard to capture the essence of a couple in just one photograph. The photo booth or film strip style allows the couple to show several sides of their personality," says Baird.

MagnetStreet Weddings provides hundreds of layouts that include: Save the Date magnets and cards, Favor magnets, Thank You magnets and note cards, Car Door magnets and Postcards.

René Maleski, Sales and Marketing Manager at MagnetStreet Weddings commented, "The Photo Booth layouts are inspired by current wedding trends and the brides themselves. They are a fantastic addition to the wedding gallery."

Designs can be viewed online by category, product, theme, color and size. All of the products are conveniently ordered via website, phone, fax or mail. For more information, please visit the website: www.MagnetStreetWeddings.com
